## USEF JP 145 Classes scored on Faults and Time

**Table II Sec 1 Speed** The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the time allowed. Horses with clean rounds or equal faults are placed according to their time taken to complete the course.

**Table II, Sec 2(a) - Time First Jump-Off.** The first round and first jump-off, if any are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. In the event of equality of faults after the first round, there will be one jump-off for the first place only in which time will decide in the event of equality of faults.

**Table II, Sec 2(b) - Time First Jump-Off.** The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. If a competitor has gone clean in the first round, the competitor will, without leaving the ring, upon an audible signal, commence the designated jump-off course. If there are no clean rounds and a tie exists for first place, there will be one jump-off in which time will decide in the event of equality of faults.

**Table II, Sec 2(a/b) - Time First Jump-off.** At the management's discretion, each exhibitor may have the option of taking part in the jump off at the completion of their round as in Table 2(b) or after all exhibitors have completed their first round.

**Table II, Sec 2(c) - "Power & Speed" Time First Jump-off.** The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed if any. If a competitor has gone clean in the first round, he will, upon crossing the finish line, commence the designated jump-off course. Time starts as the horse crosses the finish line for the initial course. If there are not clean rounds and a tie exists for first place, there will be one jump-off, in which time will decide in the event of equality of faults. The use of time allowed is optional in the first round. This class is also referred to as "Power and Speed".
